

North East Marina Update - March 22, 2023

Senator Laughlin, members of the PA Fish Commission, and DEP met yesterday at the Marina. Here is the post from Senator Laughlin's Facebook page:

This morning, I met with the Pennsylvania Fish and Boat Commission and the Pennsylvania Department of Environmental Protection at the North East Marina. Together we are trying to devise the best approach to dredge the marina basin and open the marina for the 2023 boating season.

I know this facility's importance to the North East Community and am paying attention to the calls and concerns I am hearing from my constituents and I will continue to share updates as they become available.
